

### 2018 CONTINUING MEDICAL EDUCATION GRANTS

Name of Recipient	Program Name	Program Description	Amount
Washington Univ/National Kidney Foundation	Nephrology Update: Review Update in Kidney Disease Mgmt.	This live activity is designed for primary care providers, internists, nephrologists, health care professionals including physicians in training, pharmacists, dieticians, nurses and nurse practitioners who are involved in the care of patients with kidney disease. The intended result of this activity is increased knowledge, competence, performance, and improved patient care. At the conclusion, participants will be able to apply the latest clinical trials results in the management of patients with chronic kidney disease.	\$5,000
VuMedi/Univ of CA, Irvine	Therapeutic Options for Anemia in CKD	VuMedi is an online video education network. The objective of this program is to educate physicians to improve patient care in the following manner: 1) describe new biosimilars being used in anemia management, 2) discuss new hypoxia-inducible factor activators being developed, 3) describe clinical consequences of iron deficiency in CKD and 4) discuss benefits and risks of therapy options.	\$60,000
Purdue Univ/Gi Health	2018 IBD Alliance Series	<p>This is a joint-providership of Purdue University College of Pharmacy and GiHealth Foundation (GiHF) to present at the 2018 IBD Alliance Series 80 modular mentorship meetings, complimented by an indexed CME proceedings journal supplement and the GiHF's educational portal which can be accessed at <a href="http://www.gihealthfoundation.org">www.gihealthfoundation.org</a>.</p> <p>The learning objectives are: 1) describe recent advances with current and emerging IBD therapies, 2) identify recommended immunization guidelines for IBD patients and incorporate them into clinical practice, 3) develop personalized treatment plans for patients based on risk of aggressive disease, 4) discuss strategies for managing loss of response to biologic therapies in patients with Crohns disease, 5) incorporate therapeutic drug monitoring based strategies into clinical practice, 6) proactively recognize patients with iron deficiency anemia, 7) compare and contrast various oral and IV iron formulations, 8) organize current clinical pathways for managing iron deficiency anemia in IBD effectively into clinical practice and 9) summarize clinical practice guidelines for health maintenance strategies in IBD patients.</p>	\$350,000

Purdue Univ/Gi Health	Recognizing & Managing IDA in Gastrointestinal Disorders- 2018 Satellite Symposia – 50 live meetings – 6/30/2018 – 12/31/2018	This is a joint-providership of Purdue University College of Pharmacy and GiHealth Foundation will provide a symposia series in conjunction with the 2018 annual meeting of Advances in Inflammatory Bowel Diseases (AIBD). The symposia will feature a series of sequential videos designed to reinforce the mechanisms underlying iron homeostasis and iron deficiency anemia in patients with active GI diseases.	\$250,000
Cedars -Sinai Medical Center	4th Annual Acing the GI Board Exam	This interactive, didactic experience serves as a review to aid the clinical practice for gastroenterologists, hepatologists, advanced practice providers and gastroenterology fellows to aid in patient management, including virtually all aspects of clinical gastroenterology, hepatology and endoscopy.	\$5,000

**2018 CONTINUING MEDICAL EDUCATION GRANTS**

<b>Name of Recipient</b>	<b>Program Name</b>	<b>Program Description</b>	<b>Amount</b>
Pharmacy Times Continuing Education	Assessing Iron Therapy Options for CKD	Pharmacy Times Continuing Education™ (PTCE™) has identified crucial roles for pharmacists in the care of patients with CKD and iron deficiency anemia. PTCE recommends developing and offering a 2018 educational program to educate pharmacists on the etiology of iron loss in CKD as well as the therapy options available for this patient population. This education would be offered to our learners through a 12-14-page print, in-book article published in two of our print publications. The first, <i>Pharmacy Times, Health System Edition</i> which would reach over 194,000 clinical specialists, health system, long term care, community, and ambulatory care pharmacists and the second, <i>Specialty Pharmacy Times</i> reaching over 19,500 specialty pharmacists and pharmacy managers. The content would also be converted to a digital article and endured online at <a href="http://pharmacytimes.org">pharmacytimes.org</a> , catering to diverse learning preferences.	\$49,000
Swedish Medical Center	16th Annual West Coast Colorectal Cancer Symposium	The 16th Annual West Coast Colorectal Cancer Symposium will provide healthcare professionals the opportunity to receive critical updates in the treatment and management of colorectal cancer. Learners will be enhanced through interaction with expert faculty and colleagues from across various disciplines, thereby encouraging a multi-disciplinary approach to treatment that will improve patient outcomes.	\$10,000
